### U.S. Fish and Wildlife Service Mitigation Policy and Endangered Species Act Compensatory Mitigation Policy

**AGENCY:** Fish and Wildlife Service, Interior.

**ACTION:** Notice of final policies.

**SUMMARY:** We, the U.S. Fish and Wildlife Service (Service), announce the revised Mitigation Policy and the Endangered Species Act (ESA) Compensatory Mitigation Policy. The revised Mitigation Policy establishes fundamental mitigation principles and provides a framework for applying a landscape-scale approach to achieve, through application of the mitigation hierarchy, no net loss of resources and their values, services, and functions resulting from proposed actions. The ESA Compensatory Mitigation Policy adopts the mitigation principles established in the Mitigation Policy, establishes compensatory mitigation standards, and provides guidance for the application of compensatory

mitigation through implementation of the ESA.

**DATES:** The policies are effective May 15, 2023.

**ADDRESSES:** The revised Mitigation Policy is available at <https://www.fws.gov/policy/a1501fw2.pdf>. The revised ESA Compensatory Mitigation Policy is available at <https://www.fws.gov/policy/a1501fw3.pdf>. In addition, both policies are available at <https://www.regulations.gov> in Docket No. FWS-HQ-ES-2021-0014.

#### FOR FURTHER INFORMATION CONTACT:

Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point of contact in the United States.

#### SUPPLEMENTARY INFORMATION:

#### Background

Consistent with the mission of the Service and congressional direction through the Fish and Wildlife Coordination Act, as amended (16 U.S.C. 661-667(e)); the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*); and similar environmental statutes, the Service has the responsibility to ensure that impacts to fish, wildlife, plants, and their habitats are considered when actions are planned, and that those impacts are mitigated so that these resources may provide a continuing benefit to the American people.

The purpose of the revised Mitigation Policy is to provide guidance to Service personnel in formulating and delivering recommendations and requirements to action agencies and project proponents so that they may avoid, minimize, and compensate for action-caused impacts to species and their habitats, and uses thereof. The revised Mitigation Policy establishes fundamental mitigation principles and provides a framework for applying a landscape-scale approach to achieve, through application of the mitigation hierarchy, no net loss of resources and their values, services, and functions resulting from proposed actions. The primary intent of the revised Mitigation Policy is to apply mitigation in a strategic manner that ensures an effective linkage with

conservation strategies at appropriate landscape scales.

The purpose of the ESA Compensatory Mitigation Policy is to provide guidance to Service personnel as they seek to mitigate losses to endangered and threatened species and their habitats resulting from proposed actions to further the purposes of the ESA. The ESA Compensatory Mitigation Policy adopts the mitigation principles established in the revised Mitigation Policy, establishes compensatory mitigation standards, and provides guidance for the application of compensatory mitigation through implementation of the ESA. It covers all compensatory mitigation mechanisms, including, but not limited to, proponent-responsible mitigation, conservation banking, and in-lieu fee programs, and all species and habitats protected under the ESA for which the Service has jurisdiction.

#### Prior Policies

The Service's original Mitigation Policy (46 FR 7644, January 23, 1981) has guided our recommendations on mitigating the adverse impacts of land and water developments on fish, wildlife, plants, and their habitats since 1981. The revisions reflected in the revised Mitigation Policy are motivated by changes in conservation challenges and practices since 1981, including accelerating loss of habitats, effects of climate change, and advances in conservation science. The revised Mitigation Policy integrates all authorities that allow the Service to recommend or require mitigation of impacts to fish and wildlife resources, and other resources identified in statute, during development processes. It is intended to serve as a single umbrella policy under which the Service may issue more detailed policies or guidance documents covering specific activities in the future.

The ESA Compensatory Mitigation Policy serves as the Service's comprehensive treatment of compensatory mitigation under the authority of the ESA. The ESA Compensatory Mitigation Policy clarifies guidance in the Service's "Guidance for the Establishment, Use, and Operation of Conservation Banks," published in the **Federal Register** on May 8, 2003 (68 FR 24753), and "Guidance on Recovery Crediting for the Conservation of Threatened and Endangered Species," published in the **Federal Register** on July 31, 2008 (73 FR 44761).

We previously published a Mitigation Policy (81 FR 83440, November 21, 2016) and an ESA Compensatory
